Urethane Anvil Covers

Giving your die cut job some extra juice.

Zenith Cutter Co. urethane anvil covers provide ultimate stability during the most extreme die cutting jobs. Our unique urethane formulation contains TDI esters for maximum tear resistance and low resilience. Manufactured with our well mold technique, these covers remain smoother, install easier and last longer than other alternatives on the market. At Zenith Cutter Co., we believe a well-made cover makes the cut.

To juice up your die cut job, call 800.223.5202
