RAZOR SLITTER

IMPROVED PACKAGING SYSTEM FOR CONVENIENT STORAGE AND SAFE HANDLING...

Depending on performance requirements for an application, Zenith offers three types of slitters: M2, CPM10V and Tungsten Carbide. Zenith's Razor Slitters are manufactured with a unique mirror finish that allows the blade to run cooler with less dragging and run cleaner with less starch build-up. As a result, Zenith slitters last longer than comparable products from other manufacturers.

RAZOR SLITTER
