

ZENITH SCORING RINGS

THE ZENITH ADVANTAGE!

A SINGLE COLLAR ACCEPTS ANY OF OUR STANDARD PROFILES...

All Zenith Collars and Rings are made from Steel Forgings.

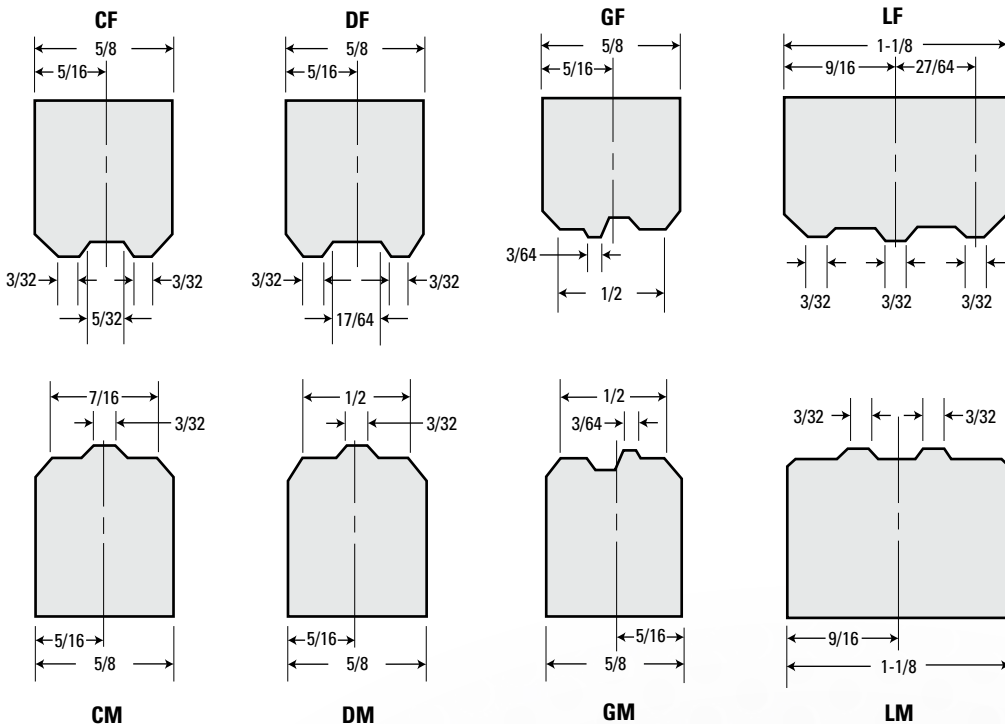

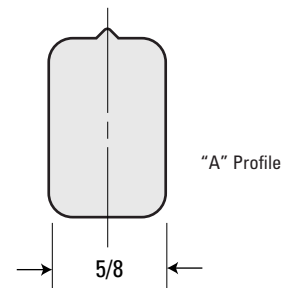

- For Corrugators, Slitters, Printer Slotters and Folder Gluers
- Durability is assured by using fully hardened steel rings. These will withstand the abuse of dropping, running together and misalignment as no other material can.
- Rings are mounted on steel collars for longest life and superior strength. Standard width is 2" for close set-ups. These also can be supplied in 1-3/4" and 1-1/2" widths.
- Concentricity is maintained by grinding the profile on each ring after heat treating.
- Profiles shown are standard. Special profiles quoted on request.

Drawing shows how scoring ring is adapted to collar for quick, accurate set-up

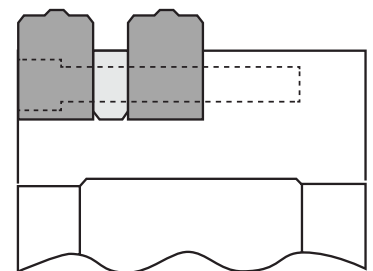

ZENITH PROFILES FOR FLEXOS AND PRINTER SLOTTERS IN CONJUNCTION WITH ZENITH POLYURETHANE INSERTS.

- Improve quality with Zenith Scorers. New advances in press scoring eliminate score roll and result in better box integrity.
- Zenith Polyurethane Inserts are a perfect match-mate for scorers, and have been developed for rugged service. We furnish it in any length for easy cutting-to-size, thus eliminating the need to carry pre-cut spares for varying O.D. heads.
- The Locking System of the Zenith head and dovetail shape of the underside of the insert provide a firm grip and positive locking of the insert.

SCORE COLLARS

BOLT SIZE	COLLAR PART NO.	
	6" Shaft	6-1/2" Shaft
3/8"	C-108	C-182
7/16"	C-140	C-242

Multiple Scoring is Easy with Zenith Scoring Heads

Stack profiles for fast set-up and flexibility. Wide range of spacers available.
